Glazpart Joins Growing List of European Manufacturers to Use EnterpriseIQ ERP Solution

-- New contract is first for IQMS Europe --

(London) October. 17, 2005 – IQMS Europe, one of the leading enterprise software (ERP) solution providers for Plastics Manufacturers, today announced it has signed an implementation agreement with The Glazpart Group of Companies in Oxfordshire, UK.

Glazpart Limited was established in 1985 in Banbury England. Glazpart is a dynamic, high technology plastic injection moulder with complete in house facilities from design to production warehousing and sales. Glazpart initially specialised in the construction industry but has quickly developed to supply many other sectors with high quality mouldings. Glazpart's success can be attributed to good business practice, sound management and its well-trained and creative work force. Glazpart has continued to invest in the most advanced technology and machinery and has established an enviable reputation within the industry and a market leading position. Glazpart are ISO9002 certified as well as having achieved British Board of Agrément certification for many of its products.

Glazpart have invested heavily in many areas of the business including an extension to its warehouse facility which has been designed to operate with the latest wire guided, narrow aisle fork lifts. The groups In house facilities have been extended to accommodate a clean room operation and an increasing number of secondary operations such as printing, foiling and assembly work enables the company to offer a complete moulding service.

The introduction of a new ERP system was the next phase of Glazpart's business development programme. Glazpart were looking for a system that would give them:

- a. Complete integration of business processes and information.
- b. A more comprehensive Bill of Materials system to facilitate more accurate costing and better production planning and material controls. Particularly in management of their secondary operations.
- c. An Improved business partner interface through the use of ecommerce.
- d. A state of the art warehouse management system using barcode and RF technology to improve stock handling and visibility.

Glazpart reviewed the ERP marketplace and drew up a short list of 4 companies including EnterpriseIQ from IQMS. This list was narrowed down to 2 companies based on their experience within the Plastics Manufacturing Industry. From those 2 solutions Glazpart chose EnterpriseIQ. "The IQMS software provided a more comprehensive solution that was dedicated to Plastics Manufacturing" said Mark Nelson, FD of Glazpart. "Not only does the software have some great features that are specific to Plastics Manufacturing but IQMS understands what a Plastics Manufacturer does and what our problems are."

Roy Tabb, IT Manager commented "EnterpriseIQ is an absolute must for Plastics Manufacturers looking for an ERP solution. It is the only software we saw that catered for all areas of our business without the need for modification or complex work arounds. IQMS has made us think about our business, the software has features that enable us to do things that we had not even considered when doing our investigation".

About IQMS

Since 1989, IQMS has been providing enterprise business solutions to manufacturers throughout the world. IQMS' targeted solutions solve the essential, industry-specific challenges our customers face. Our world-class supply chain and enterprise solutions optimize business performance and deliver rapid return on investment, low total cost of ownership, and bottom-line business results. IQMS backs EnterpriseIQ with a one-year money back guarantee with all upgrades at no additional charge. With offices across North America, Europe and Asia, IQMS serves manufacturers around the world. For more information, please visit www.iqms.com or www.iqms-europe.com.

In 2002, IQMS and Plasticsgrid teamed up to deliver the EnterpriseIQ system to manufacturers throughout Europe while a third-party provided implementation services. Now as IQMS Europe, one company will provide sales, marketing, implementation and service to manufacturing customers throughout Europe. With this consolidation, IQMS Europe strengthens the ERP provider's overall position in the manufacturing industry in Europe.
